EAM Benchmarking

You would like to know where you stand?

- You would like to compare your EA management capability with those of other companies?
- You would like to identify current shortcomings related to your EA management capability?
- You look for opportunities for improving your EA management activities?

Face up to the comparison

We offer you the opportunity to benchmark your EA management capability. During an one-day in-house workshop, we capture information on your EA management capability along various dimensions. We then assess the gathered information and compare your results to our group of participants. Our method is based on a comprehensive model developed together with our university partners.

Our model

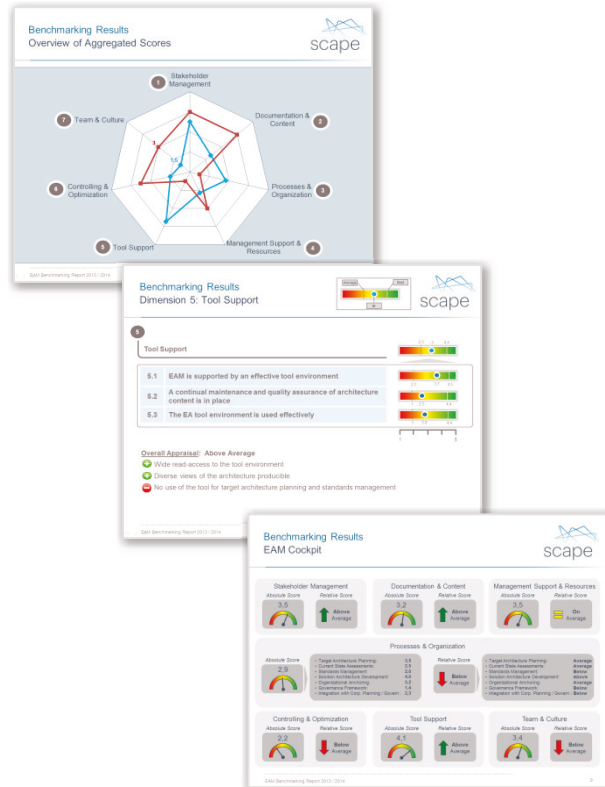

- ✓ easily applicable
- ✓ scientifically sound
- ✓ multi-dimensional
- ✓ compatible with TOGAF and COBIT

Basic package

- Identification and documentation of your capability scores
- Overview of your aggregated scores compared to others (average and best)
- General recommendations

Standard package

- Identification and documentation of your capability scores
- Detailed analysis of your scores compared to others (average and best)
- Special peer comparison of your results
- Catalog of improvement measures
